NATIONAL CURRICULUM	<p>Understand computer networks, including the internet; how they can provide multiple services, such as the World Wide Web, and the opportunities they offer for communication and collaboration</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</p> <p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts</p> <p>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration.</p> <p>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content</p>	<p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts</p> <p>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output</p> <p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Understand computer networks including the internet; how they can provide multiple services, such as the world wide web, and the opportunities they offer for communication and collaboration.</p> <p>Use technology safely, respectfully and responsibly.</p> <p>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create [...] content that accomplish given goals</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>
LESSONS	<p>Lesson 1 - Learning to understand what a network is and understand our school network.</p> <p>Lesson 2 - Learning to understand how information moves around a network and begin to recognise real world networks.</p> <p>Lesson 3 - Learning to understand how the Internet works and explain a website's journey.</p> <p>Lesson 4 - Learning to explore the role of routers.</p> <p>Lesson 5 - Learning to understand the role of packets.</p>	<p>Lesson 1 - Learning to explore a programming application.</p> <p>Lesson 2 - Learning to use repetition (a loop) in a program.</p> <p>Lesson 3 - Learning to program an animation.</p> <p>Lesson 4 - Learning To program a story</p> <p>Lesson 5 - To program a game</p> <p>Lesson 3 (online safety) - Understanding why personal information should/ should not be shared with.</p>	<p>Lesson 1: Records, fields and data - To understand the terminology around databases</p> <p>Lesson 2: Race against the computer - To compare paper and computerised databases</p> <p>Lesson 3: Sorting and filtering - To sort, filter and interpret data</p> <p>Lesson 4: Representing data - To represent data in different ways</p> <p>Lesson 5: Planning a holiday - To sort data for a purpose</p>	<p>Lesson 1: Sending an email - To understand what email is used for and to send an email</p> <p>Lesson 2: Adding attachments - To edit email content and add an attachment</p> <p>Lesson 3: Be kind online - To understand the importance of being kind online and what this looks like.</p> <p>Lesson 4: Cyberbullying - To understand that cyberbullying involves being unkind online</p> <p>Lesson 5: Fake emails - To understand that not all emails are genuine</p>	<p>Lesson 1: Planning a book trailer - To plan a book trailer</p> <p>Lesson 2: Filming - To take photos or videos to tell a story</p> <p>Lesson 3: Editing the trailer - To edit a video</p> <p>Lesson 4: Transitions and text - To add text and transitions to a video</p> <p>Lesson 5: Video reviews - To evaluate video editing</p>	<p>Lesson 1: Inputs and outputs - To recognise basic inputs and outputs</p> <p>Lesson 2: Building a paper laptop - To decompose a laptop</p> <p>Lesson 3: Following instructions - To understand the purpose of computer parts</p> <p>Lesson 4: Computer memory - To understand the purpose of computer parts</p> <p>Lesson 5: Dismantling a tablet - To decompose a tablet computer</p>
SKILLS	<p>Learning what a network is and its purpose</p> <p>Identifying the key components within a network, including whether they are wired or wireless</p> <p>Recognising links between networks and the</p>	<p>Using logical thinking to explore more complex software; predicting, testing and explaining what it does</p> <p>Incorporating loops to make code more efficient</p> <p>Remixing existing code</p>	<p>Using logical thinking to explore more complex software; predicting, testing and explaining what it does.</p> <p>Understanding the vocabulary associated with databases: field, record, data.</p> <p>Learning about the pros and cons of digital</p>	<p>Learning to log in and out of an email account.</p> <p>Writing an email including a subject, 'to' and 'from'.</p> <p>Sending an email with an attachment.</p> <p>Replying to an email.</p>	<p>Using logical thinking to explore more complex software; predicting, testing and explaining what it does.</p> <p>Taking photographs and recording video to tell a story.</p>	<p>Understanding what the different components of a computer do and how they work together.</p> <p>Drawing comparisons across different types of computers.</p> <p>Using decomposition to explain the parts of a</p>

	internet Learning how data is transferred	Using a more systematic approach to debugging code, justifying what is wrong and how it can be corrected Using decomposition to explore the code behind an animation. Using repetition in programs. Understanding that computers follow instructions. Using an algorithm to explain the roles of different parts of a computer. Using logical reasoning to explain how simple algorithms work. Explaining the purpose of an algorithm. Forming algorithms independently	versus paper databases. Sorting and filtering databases to easily retrieve information. Creating and interpreting charts and graphs to understand data.	Understanding the purpose of emails. Learning about cyberbullying. Learning that not all emails are genuine, recognising when an email might be fake and what to do about it.	Using software to edit and enhance their video adding music, sounds and text on screen with transitions.	laptop computer. Explaining the purpose of an algorithm
SOFTWARE USED	Chrome Canva	Chrome Scratch Incredibox	Chrome Google sheets	Chrome Gmail	Chrome Wevo	Chrome
VOCABULARY	Digital, Devices, Inputs, Outputs, Network, Switch, Server, Wireless, access point, Network, Connections, Information	Scratch, Attributes, Projects, Sprites, Backdrop, Commands, Blocks, Program, Sequence, Algorithm, Debug	Categorise, Category, Chart, Data, Database, Fields, Filter, Graph, Information, Interpret, PDF, Questionnaire, Record, Representation, Sort, Spreadsheet	Attachment, Bcc (Blind carbon copy), Cc (Carbon copy), Compose, Content, Cyberbullying, Document, Domain, Download, Email, Email account, Email address, Emoji, Emotions, Fake, Font, Genuine, Hacker, Icons, Inbox, Information, Link, Log in, Log out, Negative language, Password, Personal information, Positive language, Reply, Responsible digital citizen, Scammer, Settings, Send, Sign in, Spam email, Subject bar, Theme, Tone, Username, Virus, WIFI	Application, Camera angle, Clip, Cross blur, Crossfade, Cross zoom, Desktop, Digital device, Dip to black, Directional wipe, Edit, Film, Film editing software, Graphics, Import, Key events, Laptop, Music, Photo, Plan, Recording, Sound effects, Storyboard, Time code, Trailer, Transition, Video, Voiceover	Algorithm, Assemble, CPU (central processing unit), Data, Decompose, Desktop, Disassemble, GPU (graphics processing unit), Hard drive, HDD (hard disk drive), Infinite loop, Input, Keyboard, Laptop, Memory, Microphone, Monitor, Mouse, Output, Photocopier, Program, QR Code, RAM (random access memory), ROM (read only memory), Storage, Tablet device, Technology, Touchscreen, Touchpad
ONLINE SAFETY SESSION	Lesson 1: Beliefs, opinions and facts on the internet To understand how the internet can be used to share beliefs, opinions and facts	Lesson 2: When being online makes me upset To understand the effects that some internet use can have on our feelings and emotional wellbeing	Lesson 3: Sharing of information To understand the ways personal information can be shared on the internet	Lesson 4: Rules of social media platforms To understand the rules for social media platforms		
EDUCATION FOR A CONNECTED WORLD	<u>Managing online information</u> I can demonstrate how to use key phrases in search engines to gather accurate information online. I can explain how the internet can be used to sell and/or buy things. I can explain the difference between a 'belief, an 'opinion' and a 'fact, and can give examples of how and where they might be shared online, e.g. in videos, memes, posts, news stories etc. I can explain that not all opinions shared may be accepted as true or fair by others (eg. monsters under the bed).	<u>Managing online information</u> I can describe and demonstrate how we can get help from a trusted adult if we see content that makes us feel sad, uncomfortable, worried or frightened. I can explain who someone can ask if they are unsure about putting something online. <u>Privacy and security</u> I can give reasons why someone should only share information with people they choose to and can trust. I can explain that if they are not sure or feel pressured then they should tell a trusted adult. <u>Health, well-being and lifestyle</u> I can explain why spending too much time using technology can sometimes have a negative impact on me. I can give some examples of activities where it is easy to spend a lot of time engaged (eg. games, films, videos).	<u>Managing online information</u> I can explain what autocomplete is and how to choose the best suggestion. <u>Privacy and security</u> I can describe how connected devices can collect and share my information with others. I can give reasons why someone should only share information with people they choose to and can trust.	<u>Health, wellbeing and lifestyle</u> I can explain why some online activities have age restrictions, why it is important to follow them and know who I can talk to if others pressure me to watch or do something online that makes me feel uncomfortable (eg. age restricted gaming or websites). <u>Online reputation</u> I can explain how to search for information about others online

NATIONAL CURRICULUM	<p>Understand computer networks, including the internet; how they can provide multiple services, such as the World Wide Web, and the opportunities they offer for communication and collaboration.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts</p> <p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</p> <p>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output</p> <p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.</p> <p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Understand computer networks including the internet; how they can provide multiple services, such as the world wide web and the opportunities they offer for communication and collaboration</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems.</p> <p>Solve problems by decomposing them into smaller parts.</p>
LESSONS	<p>Lesson 1: Teamwork - To understand that software can be used collaboratively online to work as a team</p> <p>Lesson 2: Sharing a document - To understand how to contribute to someone else's work effectively</p> <p>Lesson 3: Slide presentations - To understand how to create effective presentations</p> <p>Lesson 4: Google Forms - To understand how to create and share Google Forms</p> <p>Lesson 5: Shared spreadsheets - To understand how to use a shared spreadsheet to explore data</p>	<p>Lesson 1 - Learning To recall the key features of Scratch.</p> <p>Lesson 2 - Learning To understand how a Scratch game works by using decomposition to identify key features.</p> <p>Lesson 3 - Learning To understand what a variable is and how to make one</p> <p>Lesson 4 - Learning to understand how to make a variable in Scratch</p> <p>Lesson 5 - Learning to use knowledge of how variables work to create a quiz</p>	<p>Lesson 1 - Learning to log data taken from online sources within a spreadsheet.</p> <p>Lesson 2 - Learning to design a weather station.</p> <p>Lesson 3 - Learning to design an automated machine to respond to sensor data.</p> <p>Lesson 4 - Learning to understand how weather forecasts are made.</p> <p>Lesson 5 - Learning to use green screen technology in a video to present a weather forecast.</p>	<p>Lesson 1: What is computational thinking? - To understand that computational thinking is made up of four key strands</p> <p>Lesson 2: Decomposition - To understand what decomposition is and how to apply it to solve problems</p> <p>Lesson 3: Abstraction and pattern recognition - To understand what pattern recognition and abstraction mean</p> <p>Lesson 4: Algorithm design - To understand how to create an algorithm and what it can be used for</p> <p>Lesson 5: Applying computational thinking - To combine computational thinking skills to solve a problem</p>	<p>Lesson 1: Google Sites skills - To explore the features of Google Sites to learn how to create content for a web page</p> <p>Lesson 2: Book review web page - To plan content for a web page as a collaborative online piece of work</p> <p>Lesson 3: Creating a web page - To create a web page as part of a collaborative class website</p> <p>Lesson 4: Planning my website - To plan and create a website</p> <p>Lesson 5: Creating my website - To create a website and evaluate its success.</p>	<p>Lesson 1: Introduction to HTML - To understand and identify examples of HTML tags</p> <p>Lesson 2: Remixing HTML - To change HTML code for a specific purpose</p> <p>Lesson 3: Changing HTML and CSS - To change the HTML and CSS to alter the appearance of an object on the web</p> <p>Lesson 4: Website hacking - To understand and explore more complex components of a web page</p> <p>Lesson 5: Replacing images - To alter key elements on a webpage including text and images</p>
SKILLS	Understanding that computer networks provide multiple services, such as the World Wide Web, and opportunities for communication and collaboration.	Understanding that websites can be altered by exploring the code beneath the site Coding a simple game	Designing a weather station which gathers and records sensor data Use Google online software for documents, presentations, forms and spreadsheets	Using decomposition to solve a problem by finding out what code was used. Using decomposition to understand the purpose of a script of code.	Building a web page and creating content for it. Designing and creating a webpage for a given purpose.	Remixing existing code. Building a web page and creating content for it. Understanding that information found by

	Use online software for documents, presentations, forms and spreadsheets. Using software to work collaboratively with others. Understanding that software can be used collaboratively online to work as a team. Recognising what appropriate behaviour is when collaborating with others online.	Using abstraction and pattern recognition to modify code Incorporating variables to make code more efficient Remixing existing code Using a more systematic approach to debugging code, justifying what is wrong and how it can be corrected		Identifying patterns through unplugged activities. Using past experiences to help solve new problems. Using abstraction to identify the important parts when completing both plugged and unplugged activities. Creating algorithms for a specific purpose. Using abstraction and pattern recognition to modify code.	Using software to work collaboratively with others.	searching the internet is not all grounded in fact. Recognising that information on the Internet might not be true or correct and that some sources are more trustworthy than others.
SOFTWARE USED	Chrome Google Sheets Google Forms	Chrome Scratch	Chrome Google Sheets Sketchup	Chrome Scratch	Chrome Google Slides	Chrome HTML CSS
VOCABULARY	Animations, Average, Bar chart, Collaboration, Comment, Contribution, Data, Edited, Email, account, Format, Freeze, Icon, Images, Insert Link, Multiple choice, Numerical data, Pie chart, Presentations, Resolved, Reviewing comments, Share, Slides, Software, Spreadsheets, Suggestions, Survey, Teamwork, Themes, Transitions	Instructions, Repetition, Count controlled, loops, Programming, Infinite, loops, Project, Code, Algorithm, Debug	Weather, Degrees, Measurement, Accurate, Evaporation, Condensation, Extreme weather, Sensor data, Sensitive, Climate zone, Accurate, Tornado, Lightning	Abstraction, Algorithm, Code, Computational, thinking, Decomposition, Input, Logical reasoning, Output, Pattern recognition, Script, Sequence, Variable	Assessment, Audience, Checklist, Collaboration, Content, Contribution, Create, Design, Embed, Evaluate, Features, Google Sites, Hobby, Homepage, Hyperlinks, Images, Insert, Online, Plan, Progress, Published, Record, Review, Style, Subpage, Tab, Theme, Web page, Website, World Wide Web	Code, Component, Content, Copyright, CSS, End tag, Fake news, Hacking, Heading, Headline, Hex code, HTML, Input, Internet browser, Output, Paragraph, Permission, Remixing, Script, Start, tag, Tags, Text, URL, Webpage
ONLINE SAFETY SESSION	Lesson 1: What happens when I search online? To describe how to search for information within a wide group of technologies and make a judgement about the probable accuracy.	Lesson 2: How do companies encourage us to buy online? To describe some of the methods used to encourage people to buy things online.	Lesson 3: Fact, opinion or belief? To explain why lots of people sharing the same opinions or beliefs online do not make those opinions or beliefs true.	Lesson 4: What is a bot? To explain that technology can be designed to act like or impersonate living things.	Lesson 5: What is my #TechTimetable like? To explain how technology can be a distraction and identify when I might need to limit the amount of time spent using technology.	
EDUCATION FOR A CONNECTED WORLD	<u>Managing online information</u> I can describe how to search for information within a wide group of technologies and make a judgement about the probable accuracy (e.g. social media, image sites, video sites)	<u>Managing Online Information</u> I can describe some of the methods used to encourage people to buy things online (e.g. advertising offers; in-app purchases, pop-ups) and can recognise some of these when they appear online	<u>Managing Online Information</u> I can explain why lots of people sharing the same opinions or beliefs online do not make those opinions or beliefs true	<u>Managing Online Information</u> I can explain that technology can be designed to act like or impersonate living things (e.g. bots) and describe what the benefits and the risks might be	<u>Health, well-being and lifestyle</u> I can explain how using technology can be a distraction from other things, in both a positive and negative way. I can identify times or situations when I might need to limit the amount of time I use technology, e.g. I can suggest strategies to help with limiting this time

VOCABULARY	Algorithm, Appropriate, Copyright, Correct, Credit, Data leak, Deceive, Fair, Fake, Inappropriate, Incorrect, Index, Information, Keywords, Network, Privacy, Rank, Real, Search engine, TASK, Web crawler, Website	Scratch, Predict, Programming, Music, Typing, Spacing, Performance, Coding, Error, Command, Instructions, Debugging	8-bit binary, Addition, ASCII, Binary code, Boolean Byte, Communicate, Construction, CPU, Data transmission, Decimal numbers, Design, Discovery, Distance, Hexadecimal, Input, Instructions, Internet, Mars Rover, Moon, Numerical data, Output, Planet, Radio signal, RAM, Research, Scientist, Sequence, Signal, Simulation, Space, Subtraction, Technology, Transmit	Device, Micro-bit, Webpage, Pairing, App, Menu, Instructions, Screen, Wireless, Wifi, Wires, Laptop, Desktop, Connection, USB, Download, Program, Coding, Internet, Animation, Input	Animation, Animator, Background, Character, Decomposition, Design, Digital device, Edit, Evaluate, Flip book, Fluid movement, Frames Model, Moving images, Onion skinning, Still images, Stop motion, Storyboard, Thaumatrope, Zoetrope	Input, Output, Memory, Pixel, Binary image, ROM, CPU, RAM, Fetch, decode, execute cycle, Algorithm, Operating system
ONLINE SAFETY SESSION	Lesson 1: Online protection To understand how apps can access our personal information and how to alter the permissions	Lesson 2: Online communication To be aware of the positive and negative aspects of online communication	Lesson 3: Online reputation To understand how online information can be used to form judgements	Lesson 4: Online bullying To discover ways to overcome bullying	Lesson 5: Online health To understand how technology can affect health and wellbeing	
EDUCATION FOR A CONNECTED WORLD	<p><u>Privacy and security</u></p> <p>I can explain what a strong password is and demonstrate how to create one.</p> <p>I can explain how many free apps or services may read and share private information (e.g. friends, contacts, likes, images, videos, voice, messages, geolocation) with others.</p> <p>I can explain what app permissions are and can give some examples.</p> <p><u>Health, well-being and lifestyle</u></p> <p>I can explain how and why some apps and games may request or take payment for additional content (e.g. in-app purchases, loot boxes) and explain the importance of seeking permission from a trusted adult before purchasing.</p>	<p><u>Online relationships</u></p> <p>I can give examples of technology specific forms of communication (e.g. emojis, memes and GIFs). I can explain that there are some people I communicate with online who may want to do me or my friends harm. I can recognise that this is not my / our fault.</p> <p>I can describe some of the ways people may be involved in online communities and describe how they might collaborate constructively with others and make positive contributions. (e.g. gaming communities or social media groups).</p> <p>I can explain how someone can get help if they are having problems and identify when to tell a trusted adult.</p> <p>I can demonstrate how to support others (including those who are having difficulties) online.</p> <p><u>Online bullying</u></p> <p>I can describe how what one person perceives as playful joking and teasing (including 'banter') might be experienced by others as bullying.</p> <p>I can explain how to block abusive users.</p>	<p><u>Online reputation</u></p> <p>I can search for information about an individual online and summarise the information found.</p> <p>I can describe ways that information about anyone online can be used by others to make judgments about an individual and why these may be incorrect.</p>	<p><u>Online bullying</u></p> <p>I can recognise online bullying can be different to bullying in the physical world and can describe some of those differences.</p> <p>I can explain how anyone can get help if they are being bullied online and identify when to tell a trusted adult.</p> <p>I can identify a range of ways to report concerns and access support both in school and at home about online bullying.</p> <p>I can describe the helpline services which can help people experiencing bullying, and how to access them (e.g. Childline or The Mix).</p>	<p><u>Health, wellbeing and lifestyle</u></p> <p>I can describe ways technology can affect health and well-being both positively (e.g. mindfulness apps) and negatively.</p> <p>I can describe some strategies, tips or advice to promote health and wellbeing with regards to technology.</p> <p>I recognise the benefits and risks of accessing information about health and well-being online and how we should balance this with talking to trusted adults and professionals.</p>

NATIONAL CURRICULUM	<p>Understand computer networks including the internet; how they can provide multiple services, such as the world-wide web; and the opportunities they offer for communication and collaboration.</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact</p>	<p>Design, write and debug programs that accomplish specific goals.</p> <p>Use sequence, selection, and repetition in programs.</p> <p>Solve problems by decomposing them into smaller parts.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact</p>	<p>Understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration.</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Understand computer networks including the internet, how they can provide multiple services, such as the world-wide web, and the opportunities they offer for communication and collaboration.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Understand computer networks, including the internet; how they can provide multiple services, such as the World Wide Web, and the opportunities they offer for communication and collaboration</p> <p>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>	<p>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.</p> <p>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.</p> <p>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.</p> <p>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.</p> <p>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</p>
LESSONS	<p>Lesson 1: Secret codes - To understand that there are lots of different types of secret codes</p> <p>Lesson 2: Brute force hacking - To understand the importance of having a secure password</p> <p>Lesson 3: Bletchley Park -To understand the importance of Bletchley Park to the World War II war effort</p> <p>Lesson 4: Computing heroes - To understand about some of the historical figures that contributed to technological advances in computing</p> <p>Lesson 5: Computing heroes part 2 - To research and present information about historical figures in computing</p>	<p>Lesson 1 - Introduction to MSVLogo.</p> <p>Lesson 2 - Learning to understand nested loops</p> <p>Lesson 3 - Learning to understand basic Python commands</p> <p>Lesson 4 - Learning To use loops when programming</p> <p>Lesson 5 - Learning to understand the use of random numbers</p>	<p>Lesson 1: Barcodes - To identify how barcodes and QR codes work</p> <p>Lesson 2: Transmitting data - To explore how infrared waves transmit data</p> <p>Lesson 3: RFID - To recognise the uses of RFID</p> <p>Lesson 4: Using RFID - To input and analyse real-world data</p> <p>Lesson 5: Transport data - To analyse and evaluate data</p>	<p>Lesson 1: Transferring data - To explain how data can be safely transferred</p> <p>Lesson 2: Data usage - To investigate the data usage of online activities</p> <p>Lesson 3: The Internet of Things - To identify how data analysis can improve city life</p> <p>Lesson 4: Designing a smart school - To design a system for turning a school into a smart school</p> <p>Lesson 5: Smart school presentation - To present ideas for turning a school into a smart school</p>	<p>Lesson 1: Playing with sound - To tinker with sound</p> <p>Lesson 2: Radio plays - To record, edit and add sound effects to a radio play</p> <p>Lesson 3: First computers - To understand how computers have changed and the impact this has had on the modern world</p> <p>Lesson 4: Computers that changed the world - To research one of the computers that changed the world and present information about it to the class</p> <p>Lesson 5: Future computer - To design a computer of the future</p>	<p>Lesson 1: Invention design - To design an electronic product</p> <p>Lesson 2: Coding and debugging - To code and debug a program</p> <p>Lesson 3: Computer Aided Design (CAD)</p> <p>Lesson 4: My product's website - To create a website</p> <p>Lesson 5: Video advert - To create and edit a video</p> <p>Lesson 6: Persuasive advertisements - To understand the techniques used in advertising a product</p>
SKILLS	<p>Learning about the history of computers and how they have evolved over time.</p> <p>Using past experiences to help solve new problems.</p> <p>Writing increasingly complex algorithms for a</p>	<p>Debugging quickly and effectively to make a program more efficient</p> <p>Remixing existing code to explore a problem</p> <p>Using and adapting nested loops</p>	<p>Understanding and identifying barcodes, QR codes and RFID.</p> <p>Identifying devices and applications that can scan or read barcodes, QR codes and RFID.</p> <p>Understanding how barcodes, QR codes and RFID</p>	<p>Understanding how corruption can happen within data during transfer (for example when downloading, installing, copying and updating files).</p> <p>Understanding that computer networks provide multiple services.</p>	<p>Learning about the history of computers and how they have evolved over time.</p> <p>Using the understanding of historic computers to design a computer of the future.</p> <p>Using search and word processing skills to create</p>	<p>Using past experiences to help solve new problems.</p> <p>Writing increasingly complex algorithms for a purpose.</p> <p>Debugging quickly and effectively to make a</p>

	<p>purpose.</p> <p>Debugging quickly and effectively to make a program more efficient.</p> <p>Remixing existing code to explore a problem.</p> <p>Changing a program to personalise it.</p> <p>Evaluating code to understand its purpose.</p> <p>Predicting code and adapting it to a chosen purpose.</p> <p>Using search and word processing skills to create a presentation.</p> <p>Understanding how search engines work.</p> <p>Understanding the importance of secure passwords and how to create them.</p> <p>Using search engines safely and effectively.</p>	<p>Programming using the language Python</p> <p>Changing a program to personalise it</p> <p>Evaluating code to understand its purpose</p> <p>Predicting code and adapting it to a chosen purpose</p> <p>Altering a website's code to create changes</p>	<p>work</p> <p>Gathering and analysing data in real time. Creating formulas and sorting data within spreadsheets.</p> <p>Learning how 'big data' can be used to solve a problem or improve efficiency.</p>	<p>Using search and word processing skills to create a presentation.</p> <p>Creating formulas and sorting data within spreadsheets.</p> <p>Learning about the Internet of Things and how it has led to 'big data'.</p> <p>Learning how 'big data' can be used to solve a problem or improve efficiency.</p>	<p>a presentation.</p> <p>Planning, recording and editing a radio play. Creating and editing sound recordings for a specific purpose.</p>	<p>program more efficient.</p> <p>Remixing existing code to explore a problem.</p> <p>Changing a program to personalise it. Evaluating code to understand its purpose. Predicting code and adapting it to a chosen purpose.</p> <p>Using logical thinking to explore software independently, iterating ideas and testing continuously.</p> <p>Creating and editing videos, adding multiple elements: music, voiceover, sound, text and transitions.</p> <p>Using design software TinkerCAD to design a product.</p> <p>Creating a website with embedded links and multiple pages.</p> <p>Understanding how search engines work. Using search engines safely and effectively.</p>
SOFTWARE USED	Chrome Scratch Google sites	Chrome Logo Trinket	Chrome	Chrome Google sheets	Chrome Soundtrap TinkerCad Google Slides	Chrome TinkerCad Scratch Google Slides
VOCABULARY	Acrostic Code, Brute force hacking, Caesar cipher, Chip and pin system, Cipher, Code, Combination, Contribute, Convince, Date shift cipher, Discovery, Hero, Invention, Nth Letter Cipher, Password, Pig Latin, Pigpen cipher, Present, Scrambled, Secret, Secure, Technological advancement, Trial and error	Loop, Code, Command, Patterns, Instructions, Shape, Repeat	Algorithms, Barcode, Binary, Boolean, Brand, Chips Commuter, Contactless, Data, Encrypted, Infrared, MagicBand, Privacy, Proximity, QR code, QR scanner, Radio waves, RFID (radio frequency identification), Signal, Systems/data analyst, Transmission, Wireless	Big Data, Bluetooth, Corrupted, Data, Energy, GPS, Improve, Infrared, Internet of Things, Personal Privacy, QR codes, Revolution, RFID, SIM, Simulation, Smart city, Smart school, Stop motion, Threat, WiFi, Wireless	Background noise, Byte, Computer, Devices, File, FX, Gigabyte, Graphics, Hard drive, Hardware, Kilobytes, Megabyte, Memory storage, Mouse, Operating system, Overlay, Play, Processor, audio play, RAM, Raspberry Pi, Record, Reverb, ROM, Script, Smartphone, Sound, Sound effects, Terabytes, Touch screen, Track, Trackpad, Trailer	Adapt, Advert, Algorithm, Bugs, Coding, Debugging, Design, Edit, Electronic, Evaluate, Facts, Image rights, Images, Influence, Information, Inputs, Loops, Manipulation, Opinions, Output, Photos, Product, Program, Repetition, Screenshot, Search engine Selection, Sequence, Snippets, Software, Structures, Variables, Video, Website
ONLINE SAFETY SESSION	Lesson 1 - Life online To describe issues online that give us negative feelings and know ways to get help	Lesson 2 - sharing online To think about the impact and consequences of sharing online	Lesson 3 - Creating a positive online reputation To know how to create a positive online reputation	Lesson 4 - Capturing evidence To be able to describe how to capture bullying content as evidence	Lesson 5 - Password security To manage personal passwords effectively	Lesson 6 - Think before you click To be aware of strategies to help be protected online
EDUCATION FOR A CONNECTED WORLD	<p><u>Self-image and identity</u></p> <p>I can describe issues online that could make anyone feel sad, worried, uncomfortable or frightened. I know and can give examples of how to get help, both on and offline</p> <p>I can explain the importance of asking until I get the help needed</p>	<p><u>Online Relationships</u></p> <p>I can explain how sharing something online may have an impact either positively or negatively.</p> <p>I can describe how to be kind and show respect for others online including the importance of respecting boundaries regarding what is shared about them online and how to support them if others do not.</p> <p>I can describe how things shared privately online can have unintended consequences for others. eg. screen-grabs.</p> <p>I can explain that taking or sharing inappropriate images of someone (e.g. embarrassing images), even if they say it is okay, may have an impact for the sharer and others, and who can help if someone is worried about this.</p>	<p><u>Online Reputation</u></p> <p>I can explain the ways in which anyone can develop a positive online reputation.</p> <p>I can explain strategies anyone can use to protect their 'digital personality' and online reputation, including degrees of anonymity</p>	<p><u>Online Bullying</u></p> <p>I can describe how to capture bullying content as evidence (e.g. screen grab, URL, profile) to share with others who can help me</p>	<p><u>Privacy and Security</u></p> <p>I can describe effective ways people can manage passwords (e.g. storing them securely or saving them in the browser)</p> <p>I can explain what to do if a password is shared, lost or stolen</p>	<p><u>Privacy and Security</u></p> <p>I can describe how and why people should keep their software and apps up to date, e.g. auto updates.</p> <p>I can describe simple ways to increase privacy on apps and services that provide privacy settings.</p> <p>I can describe ways in which some online content targets people to gain money or information illegally; I can describe strategies to help me identify such content (e.g. scams, phishing)</p> <p>I know that online services have terms and conditions that govern their use</p>
